### **Construction:**

Scarecrows must be durable and must stand up to the weather. Use care when choosing your materials. All decorations must be firmly attached to the scarecrow. We recommend a 2x4 piece of lumber for the body and a broom stick for the arms. You will need a large piece of rope to attached your scarecrow to the pole. Feel free to use other props like bales of hay, corn stalks and etc. No electricity will be provided. Only solar or wind power may be used.

PLEASE DO NOT HARM THE LIGHT POLE IN ANY WAY. (Treat the post with care.) ONLY USE ROPE TO ATTACH YOUR SCARECROW.

### **Size:**

The minimum size is 4 ft. tall the maximum is 7 ft. tall.

Scarecrows and props should fit in a 3ft.wide x 4ft long area.

### **Set up:**

October 15<sup>th</sup> -22<sup>nd</sup>. This will allow time for judging. Winners will be announced October 29,2016 at Tarentum's Annual Boofest. We will notify you as soon as we have the results.

### **Clean up/Pick up:**

Entries must be picked up / Cleaned up by Nov. 5,2016 If you fail to do so your scarecrow will be disposed of.
