To whom it may concern:

Good day, folks – I am a lifetime tree lover, with a membership in Arbor Day Foundation for 20+ years. I've recently retired from many successful years as an electronics engineer, and engineering manager. My spouse and I have been here in Tarentum for 2+ years now, and would like to get involved in the community here.

I would love to serve on the Shade Tree Council, and/or zoning commission board. I'm currently aboard member of Calliope a folk music non-profit, and can work well in groups. I have the patience and experience to help rational decisions come out of meetings.

I have employed many arborists of the years, and each has taught me a bit more about trees and how to manage them.

Please consider my request to help you all, and am looking forward to your decisions.

Please ask any questions, as needed.

Sincerely, Al Bowers
