Mike Nestico, Manager
Tarentum Borough
318 E. Second Ave.
Tarentum, PA 15084

Subject: Road Signs Request

Dear Mike,

My letter concerns a request for needed road signs on Bakerstown road, West Tarentum. You have helped in the past regarding a sign request, which myself and neighbors are grateful. The current request will "hopefully" reduce vehicular speeding and warn drivers of the impending dangerous curve in the road (near Bakerstown road & Weaver way - see map attached). The following two suggestions are mine and other neighbors for placement of signs:

- 1) Before the intersection of Bakerstown road and Weaver Way (which there is no street sign), please place a 15 MPH White sign with directional arrow pointing Left, on one of the telephone poles near 1314 Bakerstown road. This would be traveling north or uphill.
- 2) Traveling east (or downhill), please place one SLOW sign before curve in road near 1319 Bakerstown road and another SLOW sign on telephone pole near 1324 Bakerstown road.

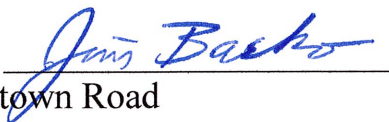

We hope you will consider these sign placement suggestions. Currently, there is no curve warning or speed limit before driving north near Weaver way.

Thank you for your service to the Borough and the anticipated signage help. If you have any questions, please let me know.

Best regards,

Jim Backo
