Incident Reports For **June 2023**

Summit Hose was alerted for **8** calls this month.

Using the National Fire Incident Reporting System ("NFIRS") classification of incidents, below is a breakdown of the types of incidents we responded to this month.

Note: class descriptions are "Including, but not limited to..."

Class 100- Fire

Any structure, vehicle, vegetation, or other object on fire, or previously on fire requiring fire department services.

Total For Month: **4**

Class 200- Ruptures, Explosions, Overheats

Ruptures involving steam, air, or gases, excessive heat calls, explosions (accidental and intentional)

Total For Month: **0**

Class 300- Rescue & EMS

Vehicle accidents with injuries and/or entrapment, search parties, victim extrications/rescues, or EMS requesting assistance.

Total For Month: **4**

Class 400- Hazardous Condition (No Fire)

Gas/oil/chemical spills, electrical issues (malfunctions/shorts, power lines down), Carbon Monoxide alarms

Total For Month: **0**

Class 500- Service Calls

Person in distress, water conditions (severe leaks, flooded basements, etc.), animal rescues, requests from police or public works, fires found to be recreational/under control, standby in station.

Total For Month: **0**

Class 600- Good Intent Call

Dispatched, but canceled while enroute, no emergency found, steam/fog/grill mistaken for smoke/fire.

Total For Month: **0**

Class 700- False Alarm/False Call

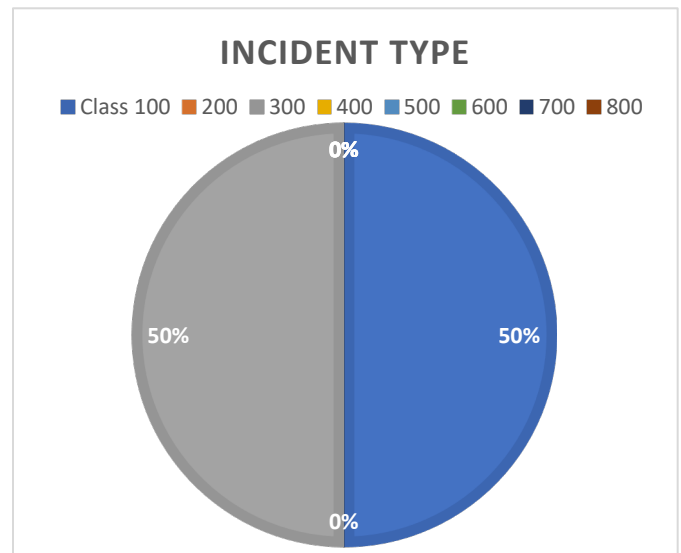

General false alarms (system malfunction, malicious or child pulling the alarm), sprinkler malfunctions, smoke/CO detector false activations, bomb/biohazard scares.

Total For Month: **0**

Class 800- Weather/Natural Disaster

Assessing earthquake, flood, lightning strikes, or tornado damage, or department being placed on standby due to impending severe weather.

Total For Month: **0**
